SCROLL TO EXPLORE

THE CHALLENGE

Higher Education is at a Crossroads

Modern learners expect digital-first, personalized experiences. Institutions that can't deliver are losing enrollment, revenue, and student trust.

<p>\$5M Lost Annually</p> <p>Institutions lose an estimated \$5 million per year from canceled low-enrollment courses a problem ClassFindr directly solves by opening those seats to partner institutions.</p>	<p>Transfer Credit Chaos</p> <p>Manual transfer evaluations are slow, error-prone, and frustrating for students. 19M+ students are impacted by credit transfer and graduation hurdles every year.</p>	<p>Delayed Graduations</p> <p>Half of Higher Ed students face blocked graduation pathways. Without smart course alternatives, students take longer to graduate hurting retention and institutional outcomes.</p>	<p>Declining Enrollment</p> <p>Institutions need a steady enrollment pipeline, but rising costs and a shifting learner landscape make it harder than ever to attract and retain the modern student.</p>

HOW IT WORKS

Powering the Student Journey, Together

Modern Campus powers the digital infrastructure that helps institutions guide students across the entire academic journey, from discovering programs to planning coursework and achieving career outcomes.

ClassFindr extends that ecosystem by adding an AI-powered marketplace and matching layer that connects students with the courses they need to stay on track and helps institutions identify students

who are the best fit for open course seats.

Together, Modern Campus and ClassFindr create a more intelligent, connected student experience — improving course fill rates, transfer efficiency, and student retention while helping institutions maximize the value of their existing systems.

Discover the Right Program

MODERN CAMPUS CMS & CATALOG

Students begin their journey by exploring programs and courses through the institution's digital experience.

Modern Campus helps institutions:

- ✓ Showcase programs and course offerings
- ✓ Personalize digital experiences
- ✓ Help students find the right academic path

This ensures students can easily discover programs that match their interests and career goals.

Plan the Academic Journey

MODERN CAMPUS CURRICULUM, SCHEDULING & ADVISING

Once enrolled, students work with advisors and institutional systems to build their academic plans.

Modern Campus supports:

- ✓ Curriculum management
- ✓ Course catalog and scheduling
- ✓ Advising and academic planning

These tools help institutions define degree pathways and guide students toward graduation.

Match Students to the Right Courses

CLASSFINDR AI MARKETPLACE

ClassFindr activates institutional data to ensure students always have access to the courses they need to stay on track.

Using AI-powered matching, ClassFindr:

- ✓ Identifies students who need specific courses
- ✓ Matches them with available seats across institutions
- ✓ Helps advisors approve transfer and course equivalencies faster
- ✓ Enables institutions to reach students who are actively searching for those courses

This creates a marketplace of courses for students and a marketplace of students for institutions.

Optimize Retention and Course Fill Rate

MODERN CAMPUS & CLASSFINDR TOGETHER

By connecting Modern Campus systems with ClassFindr's AI marketplace, institutions gain new capabilities:

- ✓ Improve course fill rates before census
- ✓ Reduce canceled or under-enrolled classes
- ✓ Accelerate transfer and articulation decisions
- ✓ Keep students continuously enrolled and progressing toward graduation
- ✓ Increase institutional revenue from existing course capacity

The result is a more intelligent academic ecosystem where institutional systems, advisors, and AI work together to support student success.

KEY BENEFITS

Smarter Academic Pathways for Everyone

From the student's first search to graduation day, the combined platform removes every obstacle.

FOR STUDENTS

AI-Optimized Degree Paths

ClassFindr's AI analyzes a student's transcript, goals, and schedule to recommend the fastest, most affordable path to graduation, including: course swaps, summer options, and cross-institutional credits.

Result: Graduate without delay or overspending.

FOR INSTITUTIONS

Fill Every Seat, Every Semester

Low-enrollment courses get offered to students at partner institutions through the ClassFindr marketplace, recouping up to \$5M annually in lost revenue and avoiding costly cancellations that impact faculty and schedules.

Result: \$5M+ recouped per institution annually.

FOR TRANSFER STUDENTS

Frictionless Transfer Credit

Proprietary AI compares syllabi, learning objectives, and credit profiles across institutions, making transfer credit evaluation faster and more accurate, so students don't lose hard-earned credits.

Result: Less credit loss, faster onboarding.

FOR ADMINISTRATORS

Streamlined Operations via Modern Campus

Modern Campus's platform automates manual, repeatable tasks while ClassFindr feeds live enrollment intelligence, helping staff focus on high-value interactions with students rather than administrative busywork.

Result: Better staff satisfaction & efficiency.

FOR COST-CONSCIOUS STUDENTS

Discover Lower-Cost Equivalents

Students can find courses at partner universities with lower tuition, fulfilling the same requirements, saving thousands of dollars while staying on track for their degree.

Result: Real, measurable cost savings for learners.

FOR RETENTION

Retain Learners for Life

Modern Campus builds lifelong relationships with students through personalized digital experiences. With ClassFindr surfacing the right course at the right time, students are less likely to stop-out due to scheduling or credit barriers.

Result: Higher retention & lifetime learner value.

CLASSFINDR AT A GLANCE

See the Product in Action

From AI-optimized degree paths to seamless course matching, every screen designed around the student's journey.

The collage displays several key features of the ClassFindr interface:

- Course Detail (CS301):** Shows course information for 'Data Structures & Algorithms' with a '95% Match' indicator and a note that it is strongly recommended for the user's CS degree.
- Course Marketplace:** A grid of course cards with filters for 'Trending Now' and 'New'.
- AI Recommendations:** A section titled 'AI RECOMMENDATIONS' with suggestions like 'Take summer courses at community college' and 'Overload Spring semester to 20 credits'.
- Your Degree Path:** A visualization of a degree path with a total cost of '\$2,500' and a '1 Semester' duration.
- Academic Goals:** A settings panel with toggle switches for 'Graduate early' and 'Reduce costs'.
- Path Snapshot - Spring 2025:** A summary of the current semester's path, including AI-recommended courses like CS 301 (Algorithms) with a 95% match and 88% acceptance rate.
- Course Comparison Table:** A table with columns for Institution, Equipment, Requirement, and Credits, listing various courses from different universities.
- File Your Requirements:** A section for tracking progress on various degree requirements.
- Next This Semester:** A grid of course cards for the upcoming semester.
- Transfer Equivalents:** A section for finding equivalent courses at other institutions.
